Synopsys

Sophie is a 10 year old girl. An older girl, Erika, lives next door. Erika wear goth clothes and has piercing. She looks very scary to Sophie. One day, Sophie hears some weird noise from Erika's garage and starts to believe that Erika and her friends are zombie.

Sophie

Erika

One evening Sophie's mother and father must leave the house, they ask Erika to come and babysit. Sophie will soon learn that Erika is not a

zombie, but the singer of a punk band. Erika's friends are also part of the band.

Target audience

This presentation was created for grade 4 to 6 students who are learning French as a second language. It uses very simple vocabulary and very predictable words. During the presentation, the students will be asked to guess some of the words of the presentation. Students who have never taken French classes or who are just starting French can also see this presentation.

This presentation is meant to be a funny exposure to French. It also contains some more advanced vocabulary.

This presentation would not be appropriate for French immersion or francophone students as they would find the vocabulary too simplistic. Other presentations are available from the Legend Factory for French or immersion students.

Presentation mode

The Legend Factory offers multimedia storytelling. The storyteller stands between two giant screens. Two LCD projectors send video clips of the presentation of the screens. A soundtrack is also integrated. Recorded actor voices interact with the storyteller. Music and sounds are also part of the soundtrack.

The Legend Factory is responsible for all the equipment. You only need to supply the electricity, the presentation room (Gym, library, multimedia room, theater, etc.) and the students.

Rates (2014 – 2015 school year)

The Legend Factory has a simple fee schedule for their shows. All the traveling, lodging and meal expenses are covered by the Legend Factory. The price is for one school but other schools can be invited to a show.

The maximum number of students is 300 students per show. The limit is due to the size of my sound system. Should you have a larger audience, you may provide a large sound system. The school personnel must operate the sound system and assume responsibility of the proper functioning of the system.

The following show are currently available:

English presentations

Title	Grade	Duration (Minutes)
Tristan and Iseult	6-12	45
Samuel, conductor of the Underground Railroad	4-12	45
